A: I have a Sony vaio, the codes are: H00000255 asus 8600, F00003186 for sony vaio-SZ. Solution: Go to your sony official website, they will upgrade the drivers for the camera. I had to run the driver, reboot and then run again. I really like what I see, but my naga still wouldn't work on a marine tank. Thanks for the info. I'll look for these, and if they come up short, I'll try with small or large blades, how's that? I think 3 inches (or less) is a little too long for my nagas. It's worth a try, anyway. I like mine with the 3cm blades too. They are sharp and clean but take some effort to keep on them. The blades are held in place by washers that are inserted into the base. To remove the blades, you use a tool to pop the washers off. You can also get blades that come with bases without washers. I like the base without washers myself but I think they are a little more expensive.Q: I can't figure out how to stop
